[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 2.

EASTERN STATES.

Dispatches from New York.

NEW YORK, Nov. 1.—A dispatch from Washington says it is asserted on the authority of Senator Pool that President Grant has expressed a determination to declare martial law throughout the entire South in consequence of the continued outrages.

The Board of Health has declared Charleston and Key West infected ports on account of yellow fever, the proclamation to extend till the 8th of November.

Rio Janeiro advices of October 8th give the full text of the emancipation bill. It frees all children born of slaves after its date, and all the slaves of the Government, and establishes an emancipation fund for the benefit of existing slaves. The Government is congratulated by all foreign ministers, and felicitations are pouring in from all parts of Brazil. Already there is evidence of a movement among owners in the direction of converting slaves into free tenant farmers or freeing them upon condition of a few years service.

The registration of voters in New York City, so far, is 91,810. Two days still remain in which to register.

There is much comment in the city to-day upon the Mansfield-Fisk correspondence. The revelations are expected damaging to the Erie officials as well as to the Tweed-Sweeny and other Tammany chiefs. Fisk replied to the Mansfield letter declaring the suit is an attempt to extort money from him. He was to-day busy in preparing a defense, and holding consultation with legal gentlemen.

English papers received to-night, contain denials from conservative Lords and statesmen, of any knowledge of a new alliance between peers and the people concerning the social movement. It is stated in a letter to the London *Telegraph*, that signatures of the Lords are in possession of a Mr. Russell.

WASHINGTON CITY.

Military Matters.

WASHINGTON, Nov. 1.—Military changes have been made by the President transferring the State of North Carolina from the Department of the East to the Department of the South. The Indian Territory, north of Texas and south of Arkansas, is added to the Department of Texas, under the command of General Augur, and the Department of Texas is added to the Division of Missouri. The Department of Platte is discontinued. The States of Louisiana, Arkansas, Mississippi and the Gulf posts will constitute the new Department of the Gulf, to be commanded by Col. Morey. The 5th Cavalry is ordered to Arizona; the 3d Cavalry is ordered to Fort McPherson. Second Lieutenant F. G. Grant, of the 4th Cavalry is ordered to report to the General of the Army. He will accompany General Sherman on a tour of military inspection through Europe.

Other Washington News.

WASHINGTON, Nov. 1.—Gen. George B. Williams, Second Deputy Commissioner of Internal Revenue, to-day concluded an engagement with the Japanese Minister to go to Japan to organize an internal revenue system similar to that of the United States. The engagement is for three years and at a large salary. Gen. Williams will sail from San Francisco on January 1st.

Major Thomas, long connected with the *National Intelligencer*, died to-day aged seventy-five years.

BY ATLANTIC CABLE.

The Russian Minister at Washington.

ST. PETERSBURG, Nov. 1.—The *Journal De St. Petersburg* denies that Minister Catacazy has been told that he cannot stay at Washington after the visit of Grand Duke Alexis. It states that Curtin, American Minister, has never informed the Government here that the American Government threatened to send the Russian Minister his passport.

WEST INDIES.

Fire at Sea.

KINGSTON, Jamaica, October 30.—The British mail steamship *Venezuela*, took fire at sea on her voyage to Liverpool. The flames were extinguished on reaching Santa Martia, by cutting the forward part of the vessel and submerging one of the water tight compartments. The fire lasted thirty-one hours. It will take ten days to repair her.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 2.—California Dexter made 2:30¼ trotting against time at Agricultural Park, yesterday.

Edward Kehoe, a native of New York, was the name of the restaurant waiter killed by the accidental discharge of his pistol which he was cleaning.

Miss Josephine O'Dwyer and Miss Margaret Hughes, took the white veil of the Sisters of Charity at St. Mary's Hospital yesterday.

The jury in the case of Michael E. Quinn against Edward L. Mayberry for $30,000 damages for the son of the plaintiff being knocked down and severely injured by falling bricks from the Grand Hotel, returned a verdict for the defendant.

Mrs. Oliver, residing on Union street near Fillmore, was dangerously if not fatally burned, by a switch of false hair catching fire from a candle. It is feared she cannot recover.

Fire Proof Buildings.

[From the Cincinnati Times.]

Many of the papers round about are amusing themselves just now with disparaging the fire proof buildings that went down in the Chicago fire, and exhorting that unfortunate city to build herself up again with more regard to stability. There is always an abundance of this I-told-you-so advice upon such occasions, and in this case it is just a little more foolish than usual. We are not speaking now of the ordinary brick and stone buildings (though those in the business portion were of average quality), but of those built with particular reference to a fire attack and yclept fire proof. Of these Chicago had several, the two finest of which—the *Tribune* and the Historical Society buildings—went down.

It is only of late years that architects have turned their attention to the building of fire proof structures with any degree of energy, and the first difficulty that met them was the interior supports of the building. It was a very easy matter to put up a shell of solid wall that would defy any terrestrial flames, but when the wall had to be connected with floors and ceilings it was another matter. Masonry was naturally the first suggestion, but the system of groined arches occupies too much room, and necessitates too great expense to be serviceable for business buildings. Chemical treatment of wooden beams was next tried, but naturally proved of little avail in case of a fire of any magnitude; but, strange as it may seem, they were the only resort up to the beginning of the present century, when the idea of cast iron beams first presented itself. Long and costly experience has shown these to be more objectionable than their predecessors, for they are so affected by sudden and excessive changes of the temperature, and so liable to concealed flaws, that less reliance is to be placed upon them, either in time of peace or war, than upon wooden substitutes. It remained for the brilliant success of Stevenson, with his wrought-iron tubular bridges, in 1850, to show our architects how a seemingly perfect security, and a great reduction of cost might be attained in fire-proof buildings. Since that time, recent as it is, the use of wrought-iron beams for buildings of importance has become very general, and several large manufactories have been established devoted exclusively to their production. Briefly, we may say, that the I shaped beam is the most used, built into the walls, and securely anchored at either end.

The next question was the filling of the spaces between the beams. The system in vogue in France, where the subject has received the closest attention, is a concrete, composed of refuse stone and plaster of Paris, upon which the floor or roof tiles are laid. We have been unable to pursue this plan in America because of the great expense of the plaster, and have substituted for it light brick arches filled in with water-lime concrete, a system very little its inferior. Such, in brief, is the present American fire-proof building, and those occupied by the *Tribune* and Historical Society were the first of their kind—perfect as money and skill could make them. It does seem as if they might have defied all the fires that ever raged.

There is, however, one exigency that cannot be provided against—the overheating of iron—it is very rare that the surrounding fire is of sufficient intensity to affect the beams, but when, as in the Chicago case, the very air is in a white heat, the iron lengthens, the rods used to tie the arches of the roof stretch so as to be of no use, the whole weight of the roof comes like a separating wedge between the walls, the iron beams spread out with a force that nothing can resist, and the building goes down with a crash. Not until a beam is discovered that will neither burn nor swell with heat can we have an absolutely fire-proof building.

OREGON.

Employees at Cape Foulweather lighthouse have each contributed one day's work to the Chicago relief fund. Fifty dollars was donated by the Superintendent, the whole making quite a handsome sum.

The *Statesman* says that George A. Edes who has just been appointed Collector of Customs for Alaska, will resign his position as Station Agent of the O. & C. railroad at Salem, and go immediately to his new field of labor. His family will still remain in Salem.

During Fair week an incident occurred at Salem of no political importance, but with an amusing political feature. Col. J. H. Reed, of Portland, a Democrat pure and simple, took passage for the Fair Ground in a hack which had a negro driver. Soon after the Colonel was seated a Chinaman took passage, and ex-Senator George H. Williams, who was the next comer, taking a careful survey of the motley crowd, remarked that as it was the "New Departure" he would go also, and so he did.

The *Statesman* learns that a young man named Wrightman, aged about 21 years, who lived near near Sublimity, was killed on Tuesday. He was rolling a field with a heavy roller and four horses. How his death occurred cannot be known as he was found lifeless, his head mashed, lying in the middle of the field. One of the horses was found loose, the other three were tangled in the harness and considerably injured. He was probably thrown by some accident and the roller must have passed over him. The family arrived here a few months ago from a Western State.

LATEST NEWS CONDENSATIONS.

Some of the thieves and murderers who participated in the Los Angeles riot have offered for sale articles stolen from Chinamen who were killed, and thus been detected and arrested.

Official returns of the late election from all the counties in Ohio show Noyes' (Republican) vote to be, 238,273; McCook (Democratic), 218,105; Steward, prohibition, 3,034; increase of Republican vote over last year, 16,560; increase of Democratic, 1,309.

The recent riot at Los Angeles was a most disgraceful and criminal affair. The amount of money stolen from the Chinese was $10,000, while other valuables amounting to half that sum were taken. The doors and walls of their houses were riddled with balls, and the roofs were chopped and torn up by the white savages.

The wife and children of C. W. Jay, editor of the Trenton (N. J.) *Detective* are supposed to have perished in the fire at Kanawa, of which Mr. Jay received intelligence indirectly, and in the last issue of his paper announces that if the rumor proves true no further issues will be published.

Tweed, the Tammany thief, was held to answer in $2,000,000 bonds. Following are the names of his bondsmen: Jay Gould qualified in $1,000,000—$400,000 being real estate and $600,000 being personal property; Benjamin Fairchild, in $300,000—in real estate; Terence Farley, in $300,000—in real estate; Bernard Kelly, in $300,000—in real estate and personal property; and Hugh J. Hastings, in $100,000—in personal property.

The story of the cow kicking over the lamp at Chicago turns out to be a canard. Mrs. Lang of No. 137 De Koven street, in whose barn the fire originated, has been "interviewed" by the Chicago *Tribune*. She says her cow is never milked at night, that she did not go into the barn with a kerosene lamp, and don't know how the fire started. She was in bed and asleep when the alarm was given, and was aroused by a neighbor.

Legal proceedings have been commenced against five Chicago insurance companies to wind up their affairs and appint a receiver, on the ground that they are insolvent. The companies are the Republic; the Knickerbocker, assets $511,000, losses $750,000; the Golden City Company, assets $235,000, risks taken $5,000,000, losses $2,000,000; the Commercial Company, assets $500,000, risks $15,000,000, losses $3,000,000; the Equitable Company, assets $230,000, risks $7,000,000, losses $3,000,000. The stockholders of these companies include many wealthy men, and they will doubtless be made to pay up their subscriptions in full, which will give the insured a larger percentage than appears from the figures here given.

LABORING CLASSES OF PHILADELPHIA.—A letter from Philadelphia gives this cheerful picture:

All around the outskirts of the city are cosey little houses, nearly all of brick built at a cost of from $1,000 to $5,000. This being the greatest and best brick market in the country on account of the peculiarly good clay, the manufacture has been brought to perfection, and the product is cheap. Philadelphia has more houses than New York. A laborer rents a house at from $9 to $25 per month, or buys a lot and builds one, or buys one on long time with easy installments. Even the humble hod-carrier is secure in the privacy of a home. Once fixed they do not desire to leave, because they possess advantages of cheap and independent living not found in any other large city. Their children can obtain without cost an education which will fit them for any profession, and to respected and encouraged in the process. When a mill or factory stops for any reason (an unusual occurrence) the operatives remain here, and generally go into other business temporarily. The employer can always find his employes when he wants them after a temporary reverse, because they all live at home. If they were boarding, or living in tenented houses the result would be different.

In the part of the city known as Frankford, where several immense mills are in operation, the inhabitants started the town on a mutual benefit basis, under the title of the Builders' Society, or some such name. Half the mechanics and laborers there own the houses they live in. All over and around the city ground is very cheap, a fact attested by the size of the factories and grounds, and the gardens of the workingmen. Farmers and country butchers would rather dispose of their marketable produce at cheaper rates near the farm than go to the city markets; therefore provisions are cheaper in the suburbs than in the city.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Miscellaneous New York News.

NEW YORK, Nov. 2.—Judge Davis is said to have stated that he has ample proof that State Senator Bowen, a Republican, in the last session of the Legislature, received $10,000 for voting for the tax levy; $10,000 for voting for ring bills; $5,000 for voting for the Erie bill, and $5,000 for voting for the city charter bill.

A meeting of the Bar Association yesterday adopted a resolution that the nomination of Ledwith for the Supreme Court Judgeship does not deserve support by the legal profession nor the people. The Association also resolved to supply their legal brethren of Chicago with a full set of legal books.

The *Sun* doubts whether Alexis is coming at all. It says he is on a general voyage of observation, and has full authority to sail where he likes. His going from England to Madras shows it is not his purpose to visit the United States at present.

The *Tribune* says yesterday was set down for the return of Ingersoll. That gentleman broke pledges made for him by his friends by failing to appear. His return is evidently postponed without day. Nothing has yet been heard of Woodward.

A *Herald* special dated London, Nov. 1st, says: It is certain that Prince Metternich and Chevalier Nigra, the Austrian and Italian Embassadors, will leave Paris soon and perhaps come to London. The alleged cause is petticoat influence. Paris is dull just now for ladies.

President Thiers is uncertain of his tenure of life and has made a political will, hoping to secure a succession in the Presidency for Perrier.

Rappel is again published and advocates the claims of Victor Hugo for the Presidency.

It is again rumored that Prince Bismarck offers Metz, dismantled, for Pondicherry or Cochin China.

European News by Mail.

NEW YORK, Nov. 2.—The *Tribune's* London letter, of October 21st, says nothing could be better for English interests in Chicago than the extraordinary efforts of the London press to get early and full accounts of the news. A lookout was kept for the *Java* at Queenstown, bringing New York papers of the 11th. Newspaper reporters went out in a tug, caught her some distance out at sea, got the papers, and this morning we have from three to six columns in the leading journals. The Bank of England and the Union Bank of London each subscribed £5,000.

The new alliance between Peers and working men has fallen into discredit. Lord Salisbury, Lord Karnoven, the Marquis of Lorne, Duke of Richmond, Lord Lenox, Sir Stafford Northcote and Mr. Gathorne Hardy, severally denied all complicity in the business. Some of them never had heard of it till they read newspaper accounts.

Mails by the *Russia* bring a report of Granville's speech at Manchester. He said: "I will venture to allude to the Treaty of Washington, which Mr. Ashton has already spoken so well of. I believe it a great accomplishment. I believe it is one which has results of the best possible character. I was accused in the House of Lords of having too much complimented all who are connected with the treaty. I cannot regret one word which I said. [Cheers.] I think we see results of it every day. It is an immense thing that Great Britain and the United States should have consented to settle by amicable means a quantity of complicated questions and establish a good feeling which ought to exist at all times. Hardly a day passes on which we have not some proof of the extent of this good feeling. What has been the feeling in England? I don't believe that if one of our large towns had been burned down, more sympathy would have been shown not only in Manchester, connected by a feeling of interest with the United States, but in every other port of the country, which has been shown with the calamity which we regret, so much that the inhabitants of Chicago have suffered. [Cheers.] On the other hand, what do we seek? I heard a rumor of an intended Fenian invasion. I telegraphed to communicate with Mr. Fish, who informed me the very next day that the Government had already sent instructions and given orders of a stringent character. [Cheers.] And we have heard, although from very meagre telegrams, that it appears that the American Government's instructions have been obeyed, and this ridiculous, wanton raid has been put down, not by us, but by Americans themselves. [Cheers.] And, if I may be allowed to add one single sentence, it is on the effect which I think our example must have with regard to the settlement of old international affairs."

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 2.—Arrived, overland, E. Walker and wife, Oregon.

Weather, cloudy and damp; wind, west.

The Foreman Mining Company, capital five millions, to operate in Nevada, was incorporated to-day. Trustees, Charles Foreman, R. F. Morrow and A. E. Head.

The Bank of John Sime & Co. is closed to-day. It is reported that the Sheriff found $30,000 in the vault, but it is doubtful if such was the case.

This forenoon as the workmen who were taking down the old Mechanics' fair pavilion, were attempting to lower the entire Stockton street front of the structure with blocks and tackle, it fell with a tremendous crash, instantly killing Patrick Carey, a spectator, and it is believed fatally injuring D. Manwell, the assistant foreman. Carey was a hard working young man, who was looking for employment. His wife was confined only two days since. Manwell is in the hospital.

There is a rumor which, if correct, may lead to the recovery of all the money due the depositors, with John Sime & Co. More will be known about it soon.

SAN FRANCISCO, Nov. 2.—The auction trade sale of teas to-day passed off better than yesterday, although many lots were withdrawn.

Between thirty and forty thousand dollars in coin was found in the vaults of John Sime & Co's bank by the Sheriff, and the special deposits were all safe.

The election in the Young Men's Republican Club, which was a very noisy and almost a riotous affair, resulted in the election of a mixed ticket as follows: President, N. M. Scott; Vice President, Chas. Sontag; 2d Vice President, F. McCarty; 3d Vice President, E. P. Fitzgerald; 4th Vice President, W. H. Warrington; 5th Vice President, John Lanagan; 6th Vice President, Geo. Browley. Recording Secretary—James E. Hughes; Assistant—Dan Donahue. Corresponding Secretary—P. J. Murphy. Treasurer—J. G. Steele, and a majority of the old crowd, as it is termed, for Directors.

John E. Tyler, the gambler who fired a pistol shot in the crowd in front of the Alhambra theater, was fined $500 to-day.

In the Broderick will case of John Kelly et al, against John A. McGlynn et al, defendant having obtained a final verdict in his favor, took out judgment, and to-day sold all the plaintiff's supposed interest in the block bounded by Harrison, Spear, Folsom and Stewart streets, valued at $250,000, a part of the estate, for $600. It was bought in by M. G. Cobb.

The failure of John Sime & Co. did not produce the trace of a run upon any of the other banks, and the excitement beyond the immediate depositors is over. It is rumored that one of the old partners, who is worth a million dollars, drew out of the firm some three months since, but no notice was given to the public of the fact, which makes him responsible for the entire debts of the concern. The report is believed by many depositors, who hope to recover dollar for dollar on their demands.

The Australian steamer, now nearly a week overdue, not telegraphed yet.

Weather raw and cold; barometer falling a little.

Cincinnati is full of vanity over her grand new fountain, the gift of the rich Mr. Probasco, which cost over $100,000 in gold. Her citizens continually tell each other and the rest of the world that it is the finest thing of the sort in all creation.

The remains of General Robert Anderson will be brought to this country on the United States frigate *Guerriere* for interment.

The Internationals.

A great deal has been said *pro* and *con* about the International Society, and many have regarded it as an incendiary organization, predisposed to revolution and anarchy, favoring strongly of agrarianism and mainly controlled by hot-headed impulsive Radicals of the Red Republican school. Garibaldi, however, who is a member of the Order, in high standing, gives the following account of its objects:

"The International has for the fundamental basis of its programme: First—Its name, which regards alike the African and the American, the European and the Asiatic, that is to say, the fraternity of men, to whatever nation they may belong. Secondly: The International will have none of the priests, that is to say, no lies. Thirdly—No standing army, for that [illegible] but a citizen militia for the maintenance of intestine order. Fourthly: The International wishes for the administrative Government of the Commune, and it is one of the chief glories of Paris that the capital of France—a city more than any other interested in maintaining a central Government, voluntarily renounces the metropolitan domination which has lasted so many years and leaves its sister cities that municipal freedom which is as sacred as the liberty of the individual or of the nation."

ANOTHER REMARKABLE CURE
OF A
CHRONIC DISEASE OF THE
THROAT, LUNGS & HEART!

I wish to say to the public that I have been troubled with a disease in my chest, lungs and heart for the last five years, and have been treated by doctors in San Francisco and Oregon but found no such relief as I have found since I commenced taking Dr. Aborn's medicines, which has only been about four weeks, and I have gained nine pounds—in fact, I feel almost like a new man. I commenced improving from the very first day, and have continued to improve ever since. Furthermore, I would say, that the Doctor's treatment is entirely different from any that I had ever taken before. I would say to all that are afflicted to give the Doctor a call, as they will find his charges reasonable and his medicines magical in their effects.

MORE WONDERFUL CURES OF
DISEASES OF THE EYE.

PORTLAND, OREGON October 21st, 1871.

I have been very bad with sore eyes, they were badly [illegible] that I could see nothing out of the left eye. I had been to the army, and was under the care of [illegible] doctor for three months and he could do nothing for me; finally I got discharged on account of my eyes. I then came to Portland, and I heard of the good reputation Doctor Aborn had in Portland, and I went under his treatment for three weeks, and now, thank God, I am cured and able to resume business. I had suffered considerably before I went under his treatment.

A Speedy Cure of Sore Eyes.

This is to certify that I applied to Dr. Aborn two days since, with my eyes much inflamed and hurting me very much. Within the short time of two days he has given me great relief, and I believe he has cured my eyes. I find him to be a very skillful and intelligent gentleman. I have resided in the Umpqua Valley, Douglas county, Oregon, for about twenty years.

NEWSPAPERARCHIVE®

The Daily Oregonian.

FRIDAY MORNING, NOV. 3, 1871.

Certain Great Facts.

From *Poor's Railroad Manual*, recently published, we take the following figures, which represent the number of miles of railroad in operation in the United States in each of the years indicated:

Year.	Miles.	Year.	Miles.
1830	23	1860	30,635
1840	2,808	1865	35,135
1850	9,021	1870	53,300

It will thus be seen that during the five years ending with 1870 we built more railroad than during any like period in our history, and almost as much as we built during the ten years of astonishing progress preceding the commencement of the rebellion. To state the case more precisely, we built from 1865 to 1870 18,234 miles, and from 1850 to 1860, 21,614 miles. During 1870 nearly four times as many miles were built as in 1860, the figures for the last named year being 1846 miles, and for the first named year 6,145 miles. Doubtless 1871 will exhibit a large increase over 1870.

Great as this increase has been it represents only one phase of our marvelous national growth. The statistics of every branch of manufacturing industry which has been protected and encouraged by the Government exhibits as great an increase as railroads, and in some cases greater. It is obvious even to a superficial observer that the internal demand for manufactures and agricultural products, under a properly diversified and distributed system of industry, far exceeds any foreign demand we have ever had for them, or ever can have. And here is an invincible argument for a diversification of pursuits in our own State.

Though railroads have multiplied so rapidly, they now earn $9,000 a year per mile, against $4,000 in 1860. This is another indication of the prodigious growth of our internal commerce, which has created cities like St. Louis, Chicago, and a multitude of less magnitude.

With facts like these before him, who will be so absurd as to allege that the country is not now enjoying greater prosperity than it has ever before known? And what a signal vindication these facts and proofs are, of the soundness of the general policy of the country, which protects and fosters American industry and trade. Our domestic commerce has increased 3,000 per cent. in ten years. Is there anything in these figures that denotes injury to our commerce by protection? It does not appear. Even in the matter of ship-building, though it is often asserted that this industry has been utterly destroyed, our tonnage built for home-trade rose from 110,000 tons in 1860 to 184,000 tons in 1870. It should hardly be worth while to say that the country is growing richer and more prosperous (for every person has the evidences of it all around him), but there are those who are silly enough to assert that the fountains of prosperity are drying up; and it is as well to have recurrence occasionally to tangible facts to show what the condition actually is.

A Better Plan.

The Democratic organ does not hesitate to say that, "under able and patriotic councils, not only would the Union have been fully restored in sixty days after Lee's surrender, but unruffled peace and general contentment would have been at once established."

Journals of the Democratic persuasion usually do not "hesitate" to make any assertions that suit their purposes. It is easy to understand the sort of "Union" which the *Herald* would have brought about in "sixty days." The problem would have been one of the simplest kind. We were told during the war by such papers as the *Herald*, that all that was necessary to secure peace was to "let the South alone." So after the war they began to assert that the only thing necessary to be done "to restore the Union in sixty days" was to place the Government and the Union in the hands of those who had just been fighting to destroy both.

The delay that took place in restoring the Union was the result of a contest begun by the ex-rebels and their Democratic allies to obtain control of the Government. Though they had just been defeated in their effort to destroy it, they insisted on their old prerogatives. [illegible] According to the *Herald*, "able and patriotic councils" would have placed the country at once in their hands. But the people thought differently, and decided not to restore rebels to power. So the Union was restored on a better plan.

The Tammany frauds are producing their inevitable effect by discrediting republican institutions in Europe. They are made the theme of editorials in all the leading journals, and those which are opposed to political progress triumphantly point to New York and ask if that is the result of popular government. One of the leading papers of Berlin says: "What a lovely state of affairs in the best, nay the only true, republic! We suppose the most rabid Prussian could not wish poor France a worse fate than to imitate American institutions in every particular. From what we can gather from American letters, New York has been plundered more mercilessly by her chosen leaders than Paris was by the greedy robbers of the Commune." Even in France the reactionary press draws a warning from New York and uses Mr. Tweed's gigantic robberies as an argument against establishing a republic. Americans know, of course, how fallacious are these arguments, but it is none the less humiliating that they can be used with even a show of plausibility.

> That the war *itself*, of which we spoke, was a great misfortune, a great calamity to be deplored, none but a miserable fanatic or a lunatic will deny.—*Herald*.

Why not say it was a *crime*? And why not add, that the men who causelessly began it, rebelling against a Government that had done them no wrong whatever, and trying to overthrow a Union which is the source of security and liberty at home and secures respect for us abroad, deserve not sympathy and encomium, but condemnation and abhorrence? And why not add further that the principles of "Jeffersonian Democracy," under the sanction of which they did these things, should nevermore be countenanced in America?

The *Overland Monthly* for November presents a remarkably varied and good table of contents. Among the articles, we note one by Mrs. Victor on the "Oregon Indians," and one by Rev. Thomas Condon, entitled the "Willamette Sound." This last article is one of unusual originality and excellence, and we shall print it entire to-morrow. Other articles in this number are "Pacific Coast Views," by Capt. Scammon; "The Lost Treasure of Montezuma," by Louisa Palmer; "Westminster Hall and its Echoes," by N. S. Dodge, and "A Few Facts about Japan."

The Newer Departure.

Serious discussion is going on among Democratic papers as to the policy of making no Democratic nomination for President next year, and supporting some dissenting Republican for the office. This proposition, first broached by the St. Louis *Republican*, is attracting wide attention. The Nashville *Banner* says: "If we say we have hopes of the success of the Democratic party in the momentous Presidential canvass of next year we deceive ourselves. Those only who dare to be truthful, among the leaders of party or of public opinion, will command the confidence of the people. Such a leader is the Missouri *Republican*, which, convinced of the utter hopelessness of a Democratic ticket, frankly advises the party managers of the opposition to make no nominations." Admitting the force of this view which the *Republican*, a leading Democratic paper, takes of the future of parties, the Memphis *Ledger*, another Democratic paper, says: "If matters progress as they are progressing—if no change come over the masses of the North, the most hopeful Democrat cannot expect a Democratic triumph next year. No matter upon whom the Radical nomination falls, the party, now unquestionably numerically strongest, will, if he be opposed by the nominee of a Democratic Convention, vote solidly together." In Virginia, the Richmond *Whig*, another prominent Democratic reflex, says: "The results of the recent elections will go far to convince all reflecting men that the only reasonable hope of defeating the Administration party at the next Presidential election is in a grand rally of all the opposition elements under new colors, and with a ticket that liberal Republicans, who desire to get the country out of the war rut, will support. If the Democratic party takes the field with Democratic candidates, the indications are that it will be doomed to a Waterloo defeat."

A new plan for the reorganization of the French army has been adopted. The effective regular force will be formed into nine corps of three divisions each, the whole to muster 342,000 men. Not much chance for the country to recuperate while maintaining such an army as this. But then, France is "preparing for peace."

The debt reduction for October is very favorable,—nearly nine millions. Every month prudent management tells a like story.

Murder at Nevada.

NEVADA, Nov. 2.—To-day about 1 o'clock a worthless bummer named, Benj. Reed and a man named Christian Johnson, had a few words in Charley's Saloon. Reed left in a few minutes, returned with a borrowed pistol and shot Johnson through the body, just above the navel. Reed was immediately arrested and lodged in jail. Johnson died in two hours.

NEVADA.

VIRGINIA CITY, Nov. 2.—Buckley, who was so badly injured in Belcher shaft yesterday, has had his right leg amputated.

Lawrence Toft died yesterday, from being kicked in the stomach by a vicious horse.

LOS ANGELES, Nov. 2.—The third day of the District Agricultural Fair opened with a grand parade of stock and awarding of premiums.

The final decision in the great, Sausal Redondo land case, made in favor of the settlers, confirms the title to about forty square miles of valuable land below the city. The case has been in the Courts for several years.

The Louisville *Ledger* (Dem.) has the following original dialogue:

N. D.: "Good evening, Mr. Republican. Don't you intend to join our new departure Democracy?"

Republican: "Why should I—my mongrel brother?"

N. D.: "Because I accept all your views—and wouldn't change 'em if I could, and couldn't if I would."

Republican: "Is that so? Well, then, what am I to gain by going with you? And besides, as my party is several years older than yours—and thoroughly organized—why in the d—l's name don't you come over to it? You'd have less baggage to move, you know?"

PREPARING FOR IT.—Discretion is the better part of valor. Tom and Arthur have been rude to their mamma. Mamma complained to papa, who is heard coming up stairs.

Arthur—"I say, Tom, here comes papa; I shall pretend to be asleep."

Tom—"I sha'n't; I shall get up and put something on!"

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption, — date, No. —

To the Land Agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of —, State of Oregon, containing — acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation, in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant, in the following form:

PRE-EMPTION CERTIFICATE, NO. —

This is to certify that — of — county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person.

(Signed) — Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual installments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

CITY.

Lamp Explosion.—Not a day passes that we are not put in possession of the particulars of some accident that has been occasioned by the explosion of kerosene. In many instances these accidents have resulted in inflicting serious injuries, and in others the damage to property would have been great had it not been for the superhuman efforts of those who were in the immediate vicinity at the time of the explosion. An accident of this character occurred on Wednesday night, and had it not been for the presence of mind of a young man, serious damage, accompanied, perhaps, with the loss of life, would have been the result. A lady had occasion to fill a lamp, and not taking the precaution to extinguish it, the result was an explosion. The burning oil running over the floor set fire to the carpet and threatened the destruction of the building, and had it not been for timely aid the house and its contents would have been totally destroyed. This is but one of the many instances that daily occur in this city. It is evident, notwithstanding that in a great degree these explosions are the result of gross carelessness, the oil sold in this city is of an inferior quality and dangerous. In other cities dealers are punished severely for selling adulterated oils, and we know of no good reason why the same mode of treatment should not be meted out to them in this city. The Council should take some action in this particular, and no longer allow our citizens to be at the mercy of unscrupulous dealers who, for the sake of a few dollars, jeopardize the lives and property of their fellow citizens.

The Bark Whistler.—We are permitted to copy the following extracts from a letter from Captain Simpson to Capt. B. F. Smith of this city, dated October 22d:

"What will be done with the *Whistler* at present is hard to say, as she is still on fire, and the only thing that can be done is to smother it out. If we fill her with water it will spoil the freight, and I don't wish to do that; I would rather lose the ship than spoil so much freight that belongs to my friends in Portland. I had a rough time the eight days I was at sea in a ship on fire. The smoke came from all parts. During the time I had two chances to leave, but I made up my mind to go down with her if I could not get her to port. We took her to the dock to discharge, but found we could not, there being so much fire in her. We stopped her up again tight, and there she still remains, and will until the underwriters give the word.

When I got on shore I took my little horse to go up town, when he stumbled and fell on top of me, injuring my arm and leg, and since that time I have not been able to move them. My lameness is better to-day, and I hope to be out in a few days again. Tell my friends that I shall do my best for them all. I care more for them than I do for myself. * * * * * * *

C. S. SIMPSON."

The New Hotel.—The *Bulletin* contains the following description of the hotel building soon to be erected at the foot of Front street, immediately opposite the office of the Oregon and California Railroad Company: "It will be four stories high, with mansard roof, and is designed after the latest and most approved models. The house will be one hundred feet square, with a frontage on *First* street. On the first floor will be three large store rooms, an office, barber shop, bath, bar and billiard rooms. On the second floor will be a dining room, fifty-four by thirty-six feet, a gentlemen's parlor and reading room, a ladies' parlor, and several parlor suites. On the third floor will be suites of rooms and single rooms. There will be one hundred rooms, with accommodations for three hundred guests. The building will be furnished in the most approved modern style, with gas and water in every room and when complete will have cost not less than $45,000. The contract with Mr. Braden calls for the completion of the house by the first of May, 1872.

New Music.—Mr. De Prans has laid upon our table the following new pieces of music published by M. Gray: The "Drum Major," as sung by Billy Emerson, arranged by Geo. T. Evans; "If Ever I Cease to Love," also arranged by Geo. T. Evans for Billy Emerson; and "The Days When I was Young," arranged by Geo. T. Evans for Charley Howard. These are all popular pieces and everybody who thinks of keeping up with the times has to have them.

A Call.—We are informed that a call will be in circulation to-day for a public meeting to be held on Friday evening, the 10th inst., to memorialize Congress for a grant of land in aid of the construction of the Portland, Dalles and Salt Lake Railroad. Such a call will be signed by everybody, and a rousing meeting should be the result. No enterprise that can be named is of more vital importance to Portland than this proposed railroad.

Across the Continent.—Bachelder's "Colossal Tableaux of a Tour Across the Continent" will be on exhibition in this city shortly. In these gigantic American tableaux, to use the language of the programme, the beholder is brought face to face with the most wild, strange and sublime sights incident to a journey of three thousand miles over the longest railway in the world.

The Dishonest Partner.—Ball, the man spoken of yesterday as having been arrested on the charge of embezzling $800, partnership funds, was, also, arraigned in the Police Court yesterday morning on the charge of stealing a saddle. On this charge he was convicted, and adjudged to pay a fine of $25. The charge of embezzlement will be examined into this morning.

Steamboat Accident.—On Wednesday night, after receiving on board her up river cargo, the *Hayward* parted her "hog-chains," rendering it impossible for her to make the trip yesterday morning to the Cascades. The *Onconta* was got in readiness, and left at the usual hour. The damage to the *Hayward* is trifling and will be easily repaired.

Too Much of a Good Thing.—This city and more especially the country towns throughout the State, are at present overrun with a countless number of "drummers," "runners," and agents for San Francisco houses. From the number of these gentlemen now perambulating the State we should judge that Oregon furnishes first class pickings.

The Omnibus Line.—The omnibuses intended for the proposed line in this city have been shipped from New York. Instead of being sent by rail, as ordered, they were shipped by sailing vessel around the Horn, and as a consequence will not arrive before April next.

Delinquent Hotel Keepers.—The hotel keepers, arrested on Wednesday on the charge of doing business without licenses, were arraigned in the Police Court yesterday. Having procured the necessary documents they were discharged with the payment of costs.

Transferred.—We learn that Joseph Knott has transferred his interest in the ferry from the foot of D street, East Portland, to this city, to Messrs. Lawrence & Jones. The boat will commence making regular trips in about two weeks.

Portland Academy.—The second term of the Portland Academy and Female Seminary commences on Monday, November 13th. The present term closes with a written examination on Wednesday, Thursday and Friday of next week.

Trouble in the Smith Family.—A man giving his name as Smith, while in a state of intoxication, fell through the wharf at the foot of Morrison street yesterday morning at an early hour, and sustained severe injuries about the head.

Social Evil.—The *Democratic Era*, suggests in view of the fact that the legal treatment of the social evil in St. Louis has worked so beneficially, that it be introduced in Portland. What, the treatment or the evil?

Dead Body Found.—The body of an Indian, supposed to have been drowned, was found on the right bank of the Columbia, about twelve miles below the mouth of the Wallamet.

Bosco.—Remember Bosco at the Oro Fino Theater this evening. As the theater will be crowded an early application at the box office for seats will be necessary.

Church Festival.—The friends of the Hall street M. E. church should remember the festival this evening for the benefit of the Pastor. Admission 25 cents.

To Sail.—The steamship *Oriflamme* will sail at 8 P. M. to-morrow. The bark *Live Yankee*, with a full cargo of wheat and flour, will be ready to sail to-day.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND GENERAL.

[From the Advocate.]

The Taylor street Sunday School is enjoying an unusual degree of prosperity, and, increasing in numbers so rapidly that measures are on foot to take out the partition between the lecture room and the infant class room. It is proposed to carpet and reseat the infant class room, and make it pleasant for this interesting class of little ones, now numbering between fifty and sixty, under the admirable management of Mrs. J. F. DeVore.

The East Portland church now reports eighty-five members, which is more than double the number when the present pastor, Rev. J. W. Miller, took the charge. The Sabbath school is flourishing.

The North Portland Mission Sunday School promises to be quite a success, as it increases in number every Sabbath, last Sabbath there being about forty in attendance. They are using for the present a very comfortable room in the North Portland school house.

Hon. Joseph S. Smith, accompanied by Mrs. Smith, expect to leave on the next steamer for California for the winter. Bro. Smith is one of our excellent lay delegates to the next Conference, which will meet at Brooklyn in May.

Rev. J. S. McCain, pastor of Milwaukie charge, will commence a meeting this (Thursday) evening at Lee's chapel, to be protracted for several days. Preaching may be expected at the chapel on Sabbath morning next at 11 o'clock.

The November Missionary Concert of the Taylor street M. E. Sunday School, will take place next Sunday at 2 P. M. All are invited.

Mr. H. Y. Thompson was elected Librarian at the Taylor street M. E. Sunday School on Tuesday evening last, vice C. R. Watkins, resigned.

EAST PORTLAND.

[From the Democratic Era.]

As we anticipated, the provisions of the ordinance imposing a fine for fast driving on the bridges within the city limits were in several cases violated, and a few fines collected. The violations in most cases were the result of ignorance of the passage of the ordinance, and the obscure placement of the notice.

It seems odd that J street, the most important thoroughfare in the city, should be the last to be finished. The bridge has been completed for some weeks, and yet the street leading from the same to Fourth street drags along at a snail's pace, being now in a worse condition than it was a fortnight since.

A grand vocal concert will be given at Odd Fellows' Hall in this city, on Wednesday evening, Nov. 8th, inst., the proceeds arising from which will be applied to purchasing an organ for the M. E. Church of East Portland.

While on his recent visit to the East Dr. A. M. Loryea purchased, at his own expense, and had forwarded a splendid church bell for St. David's church in this city.

LOCAL BREVITIES.

E. Garland, of the U. S. Signal Corps, has opened an office in Gilman's building, corner of First and Alder streets.

The wharf at the foot of Morrison street is said to be in a dangerous condition. The foot of this street calls for the immediate attention of those in authority.

The German Benevolent Society of this city propose to erect a hospital. The Society is in a prosperous condition.

The machinery for the tug boat *Ben Holladay* has been received.

The railroad ferry is now making trips between this city and East Portland every ten minutes. The boat is doing a heavy business.

Through tickets for San Francisco by the overland route are being sold at the office of the Oregon and California Railroad Company in this city.

Suit for Damages.—D. J. Jacobi has sued A. B. Hallock in the Circuit Court for damages to the tune of $10,000. The plaintiff in his complaint alleges: That on the 4th day of October, 1871, in the city of Portland defendant violently assaulted plaintiff, and pulled and twisted plaintiff's nose, and struck plaintiff in the face violent blows, and threatened to take the top of plaintiff's head off, whereby he put the plaintiff in fear of his life, and offered him great personal indignities to plaintiff's great damage in the sum of $10,000, wherefor plaintiff asks judgment against defendant for the above amount.

The Great Fire.—W. H. Thomas, just from Chicago, has presented us with a map showing the burnt district in Chicago. The map, which is the best one we have yet seen, and the only one that conveys an adequate idea of the extent of the great conflagration, is published for the benefit of the Relief Fund by a publishing house in St. Louis.

Generous.—The citizens of McMinnville have subscribed $200 to the relief of the sufferers of the fires in Wisconsin and Michigan. The money will be forwarded through Mayor Wasserman to its destination.

Disgraceful.—A couple of enterprising individuals are making preparations for a bull and bear fight to come off on Saturday, at the lower end of Front street. We don't think the fight will come off.

Suit Against the City.—D. Jacobi has brought suit against the city to recover the sum of $294, for services rendered as policeman during a period that he was on leave of absence.

BUSINESS NOTICES.

Furs.—Winter is upon us, and these warmth-giving robes are in demand. Rummelin & Gutmann calls attention in our advertising columns to their large stock and great variety. First street, between Stark and Oak.

Vichy Waters are curative in Gravel, Stone, Vesical Catarrh, Affections of the Intestinal Tube, Liver, Spleen, Hepatic Colic, Paludal Cachexia, Albuminuria, Chlorosis, etc., and most soothing and preventive in Gout, Rheumatism, Rheumatic Gout, Diabetis, etc. For sale at C. H. Woodard & Co.'s Drug Store, Front Street, Portland.

A Word to the Wise is Sufficient.—Be it known to the People of Portland and the surrounding country, that at the extensive clothing establishment of Kohn & Fishel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at this House and examine the large stock of Clothing and Furnishing Goods. You will come away satisfied.

A Cough, Cold, or Sore Throat, requires immediate attention, as neglect oftentimes results in some incurable Lung Disease. "*Brown's Bronchial Troches*" are a simple remedy, and will almost invariably give immediate relief.

Owing to the good reputation and popularity of the Troches, many *worthless and cheap imitations are offered, which are good for nothing*. Be sure to obtain the *true* "*Brown's Bronchial Troches*." Sold everywhere.

Sinking Fast.

Pale, miserable, discouraged, without relish for food, without energy enough for exertion, yet with no acute pain, or other specific indication of disease, how often do we see feeble invalids fading as it were out of life without any apparent cause. We say of them that they are "sinking fast," or "sinking gradually," as the case may be. But there is no good reason why they should sink at all. Persons in this dead-alive state simply want invigorating and vitalizing. Nature, in a state of torpor, demands help. Bring out the reserve of vitality in the system, brace the nerves, tone the stomach, break up the morbid trance of body and mind with a course of Hostetter's Stomach Bitters. It can be done. It has been done in thousands of instances. The effect upon the enervated frame is electric. Never give up, however languid and broken down. Remember that for the exhausted, the debilitated, the desponding, this powerful vegetable restorative is a genuine elixir. It is not a mere stimulant that provokes a transient flash of vigor in the system, and then leaves it in a more depressed condition than before. It removes the causes of debility by altering the secretions, and regulating the action of the internal organs, as well as re-enforcing them. It is a particularly valuable medicine at this season, because it is an antidote to the malaria which produces intermittent fever, bilious colic and other disorders of the bowels prevalent in the fall.

NEW YORK

LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS...$17,000,000!

ISSUED 9.925 POLICIES IN 1870.

Insuring Over $27,000,000!

WM. H. BEERS,
Vice President and Actuary.

MORRIS FRANKLIN,
President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

NUMBER OF POLICIES ISSUED IN 1870.............................11,917.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!

IN INCOME,
IN ASSETS,
IN NUMBER OF POLICIES,
IN AMOUNT INSURED,
IN SOLIDITY AND STRENGTH.
IN SOUNDNESS,
CHEAPNESS,
PROMPTNESS
AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities, and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

The British ship *Bristolian* will, it is now determined, leave her present anchorage next Tuesday for Liverpool. Her cargo, as before stated, amounts to a little over 1,000 tons Wheat.

The b[illegible] commenced yesterday morning to take in cargo for San Francisco. She will have, when loaded, 500 tons Flour and Wheat, mostly the latter.

The four mast bark [illegible], Wiggin, master, arrived at San Francisco Oct. 27th, 11[illegible] days from the Columbia river, with cargo of produce to master. On the 24th, the sea running very high, she shipped large quantities of water, and at 3 A. M. the following day she rolled away her foretop-gallant mast, which carried with it the head of the topmast.

The *Falkinburg* is loaded at Rainier, and we hear by private letter, that she will sail for Honolulu about the middle of next week.

The steamship *Oriflamme* is advertised to sail for San Francisco at 6 P. M. [illegible].

We have nothing new in the Wheat market to-day. It seems to be pretty well settled that the report received the other day, of an advance at Liverpool to 12s 10d, was sensational, and based only upon irresponsible rumor. It is equally well settled that the tone of that market is firm at the extreme of former quotations.

The San Francisco *Bulletin* of last Saturday says:—Two more cargoes were cleared yesterday, making sixteen full cargoes and one partial cargo despatched since July 1st. These cargoes aggregate 472,000 centals, a very small quantity as compared with the shipments for the corresponding period in previous seasons. We now have [illegible] under engagement to load. The surplus yet remaining in the State for export is estimated at 60,000 tons, one-half of which is in the warehouses of this city.

Concerning the arrivals of goods, the San Francisco *Bulletin* says:—Our import trade for the week has been fair. There have been 18 or 20 cargoes of goods received, including nine full cargoes of Coal, one of Iron, one of Granite, one of Cedar, one of Rice, one of Sugar, one of Tea, and four with assorted m[illegible]. The last named embrace two full ships from New York with the usual miscellaneous goods, one from England and one from *France* with Drugs, Liquors, Wines, Iron and Salt. There were also two cargoes of Fruit and several of Furs and Skins, [illegible] load of Foreign and domestic goods from Panama.

Merchandise Report.

COTTON GOODS—Within the week there has been an advance of ½@1c ⅌ yard on all staples.

WOOL AND WOOLENS—We quote Spring clip as heretofore; Fall clip quotable at 20c. We deduce from our Eastern advices by mail that Wearing Flannels are in more active [illegible] than any other variety of Woolen Goods. The sales for the week ending Oct. 21, at New York, were larger than usual, and prices were firmly maintained.

WHEAT—Millers and jobbers are paying to-day from wagon, $1 25@1 30 ⅌ bushel. Shippers are offering $2 40@2 45 ⅌ cental, sacked.

FLOUR—Remains quiet, and [illegible] are effected only to the local trade. Extra ranges from $7 to $7.50; superfine, $[illegible] 75. Sale of 75 bbls superfine to-day at $6 50; other small lots, terms private.

OATS—[illegible] bu., and wanted.

BEANS—[illegible]

PROVISIONS—The market has advanced a trifle. Bacon Sides, firm at 15c; Hams, do. at 17@17½c; Lard, unchanged.

FEED—Bran, quotable at $25 ⅌ ton; Middlings, $30@$45, according to quality; Shorts, $28.

Markets.

[BY TELEGRAPH.]

San Francisco, Nov. 2—Wheat—Choice $2 70 was offered.
Barley—Range, $1 70@2 10.
Oats—$1 80.
Hay—None offered. Quoted at $17@23.
Potatoes—Choice Reds, 90c@$1 12½; sweet, $1@1 25.

Daily Receipts of Produce.

Per O. & C. R. R., Nov. 1.—2 cars wheat, Allen & Lewis; 18 cars wheat, Hewett, Flowerdew & Co; 1 car wheat, C. B. O. & Co; 1 car flour, Kinney Bros; 1 car flour, Leveridge, Wadhams & Co.; 1 car bran, Hibbard & Co.,—and other minor articles of produce.

Shipping Intelligence.

[BY TELEGRAPH.]

San Francisco, Nov. 2—Arrived—Bk *Martha Rideout*, Port Blakely; bk *Tidal Wave*, Port Townsend.
Sailed—[illegible] Victoria; ship *John Jay*, schrs. *Norway*, *Wild Gazelle*, *Kitty Stevens*, Freeport.

TO IRON MANUFACTURERS.

Proposals for the Metal Work of a First Order Light-House to be Erected at Cape Foulweather, Oregon.

OFFICE OF LIGHT-HOUSE ENGINEER, 13TH DISTRICT,
PORTLAND, OREGON, October 24, 1871.

SEALED PROPOSALS, ENDORSED "Proposals for Metal Work for Cape Foulweather Light-House," will be received at this office and at the office of Col. R. S. Williamson, 509 Kearny street, San Francisco, until 12 o'clock of Wednesday November 29, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary for the completion of the METAL WORK of a first order Light-House for Cape Foulweather, Oregon, in accordance with the specifications and drawings.

The same to be delivered at the expense of the contractor, on board of a sea going vessel or vessels, at San Francisco or Portland.

The Light-House Establishment will provide all the wrought iron floor beams, the lantern, the lens, the lamps and furniture belonging thereto, and their cost is not to be included in the amount of the bid.

The bid should state the sum in United States legal tender notes for which the ENTIRE METAL WORK, as shown on the drawings, will be completed, fully erected at the workshops, then taken down after acceptance, and delivered as aforesaid; and should also state the day and date on which it shall be so completed and delivered, under forfeit, as specified in the "Form of Bid."

The work will be carried on under the personal supervision of an agent of the Light-House Establishment, and all facilities must be afforded him for inspecting the material and workmanship. Such parts of either as are not in accordance with the drawings and specifications must, in case of rejection, be made good at the expense of the contractor.

The right is reserved to reject any proposal for any reasons deemed sufficient.

Each bid must be accompanied by a bond, signed by the bidder and two competent sureties, in the sum of five thousand dollars ($5,000); that, in the event of the acceptance of such bid, the necessary contract will be entered into within ten (10) days after notice is given that the bid has been accepted.

Bond and security in the sum of five thousand dollars ($5,000) signed by two competent bondsmen, for the faithful performance of the contract, will be required.

Plans, specifications, and forms of proposals may be obtained from the undersigned, or from Col. Williamson, on application, by mail or in person.

The City of Portland does ordain as follows:

Section 1. The Street Commissioner shall have the general supervision of all streets, roads, sidewalks, pavements, and public grounds in the city of Portland, and shall report from time to time to the Common Council such alterations, repairs, or improvements as may be necessary to the public grounds, or the streets in front of public property, together with the best manner of doing the same.

Section 2. It shall be the duty of the Street Commissioner to superintend the grading, planking and repairing of all streets, alleys, and sidewalks, and all other public improvements of the city, which have been, or may hereafter by ordinance be placed in his charge, or under his supervision.

Section 3. It shall be the duty of the Street Commissioner to remove all obstructions from the streets, alleys, sidewalks, and public grounds of the city, except as otherwise provided by ordinance.

Section 4. It shall be the duty of the Street Commissioner to cause the removal of all nuisances from the streets, alleys, and public grounds, within the limit of the city, and the necessary expenses of such removal shall be paid out of the City Treasury, when the person or persons causing or permitting such nuisance cannot be found.

Section 5. The Street Commissioner shall perform such other duties as are or may hereafter be required of him by any ordinance or resolution of the Common Council concerning the streets, sidewalks, and public grounds of the city.

Section 6. It shall further be his duty to see that all ordinances relating to streets are strictly enforced, and to make complaint before the Police Judge of all violations of such ordinances.

Section 7. In all cases where a conviction shall be had before the Police Judge upon complaint of the Street Commissioner, for a violation of any ordinance relating to streets, the Street Commissioner shall receive, as compensation for his trouble, the sum of five (5) dollars, to be taxed as costs against the offender, but in no event shall the city be holden for the same.

Section 8. The Street Commissioner shall receive for his services a yearly salary of fifteen hundred dollars, payable monthly.

Section 9. Ordinance No. 224, entitled "An Ordinance defining the duties and fixing the compensation of the Street Commissioner," and the ordinances amendatory thereto, are hereby repealed.

Passed the Common Council October 25, 1871.

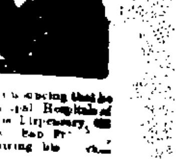
Dr. Gibbon's Dispensary.



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established [illegible] for the treatment of [illegible] and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., Skin Diseases of [illegible] years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed [illegible] his Dispensary, 623 Kearny street, corner [illegible] San Francisco, where his old patients and those requiring his [illegible] may find him.

The Doctor has spared neither [illegible] money in seeking out new remedies, [illegible] with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering [illegible] miserable existence from the effects of secret indulgence or from virus absorbed into the system? [illegible] and disguised incessantly [illegible] tions, disqualifying them for [illegible] or the enjoyment of life. [illegible] sands suffer until death close the scene. Let parents, guardians, friends, attend [illegible] are suffering with any of those horrible [illegible] they are cured for and [illegible] too late. [illegible] them immediately to Doctor Gibbon, a physician who has made private diseases his [illegible] years, and who is certain to cure the most [illegible] without mercury or any injurious drugs. [illegible] important to those who are afflicted, or to those who are interested in the welfare of their friends, to [illegible] the many pretended doctors who infest [illegible] publishing their skill in curing all diseases [illegible] to impose upon the public by using the names [illegible] from Europe and other places. [illegible] and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions [illegible] solitary vice, or depraved sexual indulgence, is practised by the youth of both [illegible] unlimited extent, producing, with unerring certainty the following train of morbid symptoms [illegible] local measures, viz: [illegible] dark spots before the eyes, pain in [illegible] the ears, noise like the rustling of [illegible] about the loins, [illegible] confused vision, blunted intellect [illegible] diffidence in approaching strangers [illegible] disposition [illegible] loss of memory, [illegible] pimples [illegible] eruptions about the face, furred tongue, [illegible] consumption, night sweats, monomania [illegible] insanity. If relief is not obtained [illegible] immediately, either in person or by letter, and have [illegible] effected by his new and scientific mode of treatment [illegible], which never fails of effecting a quick [illegible] cure. Dr. G. will give One Hundred Dollars [illegible] rily to him the [illegible] of the Son [illegible]

MARRIED MEN.

Or those [illegible] who are [illegible] under any of these fearful maladies, should not [illegible] sacred responsibility resting upon them nor [illegible] obtain immediate relief.

DOCTOR GIBBON is reputable and will give his patients a written instrument binding himself to [illegible] and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full directions. By inclosing [illegible] in registered letter through the Post Office or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.
